

## **Section Title**

## **Lecture Title**

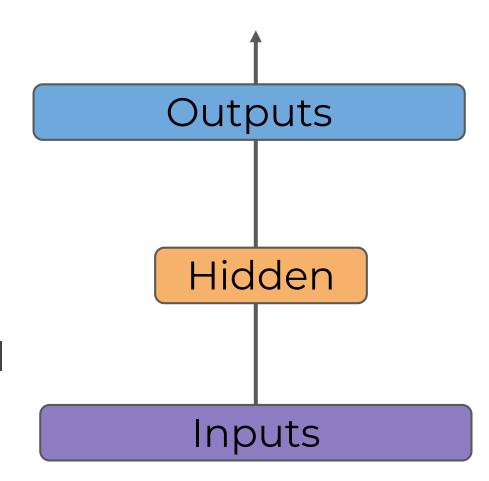

- Default text font is Montserrat at 29 font.
- Feel free to play around with spacing or font size as long as slides retain the same uniform feel.

 Colors used for shapes or figures should be the default Google slide colors on level "Light 1".

Code should be written in Source Code Pro

```
if 1==2:
  print("Woah")
elif 1==1:
 print("One is equal to One")
else:
 print("Everything Normal")
```

Syntax Highlighting is encouraged

```
if 1==2:
  print("Woah")
elif 1==1:
 print("One is equal to One")
else:
 print("Everything Normal")
```

Colors used should be defaults on Dark 1

```
if 1==2:
  print("Woah")
elif 1==1:
  print("One is equal to One")
else:
  print("Everything Normal")
```

## Complete Python Bootcamp

Also nice to use boxes to highlight features

```
if 1==2:
  print("Woah")
elif 1==1:
  print("One is equal to One")
else:
  print("Everything Normal")
```

## Lecture 2

• First slide of lecture 2.
